Onboarding Form Flows

How the four onboarding services (Tax, Insurance, Financial Advisory, Accounting) collect, route, and notify. Use this as the source of truth for what each form does in production.

Shared entry point

1. User lands on [app/\(main\)/onboarding/page.tsx](#) (or the iframe-embedded variant [app/embed/onboarding/page.tsx](#)).
2. [ServiceSelection.tsx](#) shows four buttons: **Tax / Insurance / Accounting / Financial Advisory**.
3. Selection routes to the right form component:
 - Tax / Insurance / Advisory → [SimpleOnboardingForm.tsx](#)

- Accounting → [ClientOnboardingForm.tsx](#)

4. On submit, the form calls `submitTargetData(data, serviceType)` in [app/actions.ts](#).

5. `submitTargetData`:

- Maps `serviceType` → Dynamics `riivo_leadtype` code
- Assigns the owner (systemuser for tax/insurance/advisory, team for accounting)
- Creates (or updates) the lead in Dynamics CRM
- Uploads any file attachments as annotations
- Fires two emails in parallel: **team notification** + **client thank-you**

Accounting

What is collected

3-step form — [ClientOnboardingForm.tsx](#).

Step 1 — Your Details

- Client Type (if not Individual, Company Name becomes required)
- Registered Company Name (conditional)
- Full Name, Email, Phone
- Services (3-tab selection):
 - **Registrations:** Company, VAT, PAYE, Public Officer, Financial Statements, Other (+ description)
 - **Retainer:** Full Accounting Service + retainer notes

- **Other Services:** Management Accounts (Quarterly), Final Year End Accounts, Company Tax Return, Company Provisional Return, Personal Tax Returns, Personal Provisional Return, CIPC Annual Return

On advancing from Step 1 → Step 2 a **background lead is created** in Dynamics with `sendEmails: false`, so the lead is captured even if the user abandons mid-flow. Final submit updates that same lead.

Step 2 — Document Uploads

- CIPC / COR14.3 Registration file
- Other documents (multiple files allowed)
- Files are base64-encoded and uploaded as Dynamics `annotations` attached to the lead.

Step 3 — Review & Submit

- Additional notes (free text)
- Optional Calendly consultation booking

Dynamics lead

- `riivo_leadtype = 100000001`
- Owner: `/teams(926b8d46-212c-f111-88b3-7c1e523455ba)` → existing accounting team
- Service booleans mapped to CRM fields (`riivo_vatregistrationfiling`, `riivo_annualfinancialstatements`, `riivo_corporatetaxreturns`, `riivo_monthlybookkeeping`, `riivo_payrollservices`, `riivo_companysecretarial`, `riivo_businessadvisory`, `riivo_independentreviewaudit`)
- `riivo_notes` contains a formatted summary (company, notes, selected services)

Emails

Team notification (sent to):

- `roscoe@ttt-tax.co.za`
- `james@ttt-accounting.co.za`
- `kelly@ttt-accounting.co.za`

- jannes@ttt-accounting.co.za

Subject: **New Accounting Lead – {client name}** Shows: Name, Email, Phone, Client Type, Company, Selected Services, Notes, link to lead in CRM. Reply-To: the client's email.

Client thank-you: Subject: **TTT Adaptive Accounting – Thank You for Your Submission** Branded as **TTT Adaptive Accounting**. Body references "our accounting services". Contact line: **Tel: 010 442 9222 | Email: registrations@ttt-tax.co.za**. Role term: "Designated Accountant". If a Calendly consultation was booked, date/time/accountant are shown. Reply-To: registrations@ttt-tax.co.za.

Environment variables (production)

Set in `.env.production`:

```
# Graph / Dynamics auth

Quick test checklist

For each service, submit a test lead and verify:

- ☐ Lead appears in Dynamics with the correct **riivo_leadtype**
- ☐ Lead **owner** matches the table above (tax → TaxCrew user, insurance → Netasha, advisory → Andrew, accounting → team)
- ☐ Team notification email lands in the right inboxes only (no cross-pollination)
- ☐ Team email subject starts with **New {Service} Lead –**
- ☐ Client thank-you subject starts with the correct brand name
- ☐ Client thank-you signature/contact line matches the service brand
- ☐ For **tax**: ID Number, Tax Number, Industry rows are visible in the team email
- ☐ For **accounting with Calendly booking**: consultation details appear in client email

- ☐ Replying to the client thank-you routes to the right admin inbox
